THE SPLITSVILLE PROJECT

*How to cut unholy
'sanctuary cities'
down to size.*

All that's wrong with America is being perpetuated, *deliberately*, in our big cities.

- Corrupt politicians bribe and manipulate people into government dependency to achieve a stranglehold in many state legislatures and big population centers.
- ACORN does its dirty deeds downtown.
- 100 years of 'master-planned' rural annexation has funded urban Communism.

Typical City: Giant Sucking Sound

Are you tired of scofflaws?

- The big U.S. cities where our Troops and Vets are spat on and our Flag is burned is also where...
- ... corrupt law enforcement aids and abets crime,
- ...abortion clinics get police protection while pro-lifers are falsely accused and abused,
- ...teachers are subjected to constant defiance, rudeness and often, violence,
- ...illegal aliens including terrorists find sanctuary.

Are you furious about corrupt, overpaid, sworn officials who...

- Declare your hometown an illegal 'sanctuary city'
- Loathe our troops and love Code Pink
- March in vulgar anti-family parades
- Use KELO/eminent domain to plunder Citizens
- Bribe, extort, collude and perjure to stay in office
- Act with impunity to feather their own nests
- Plot to annex even more unincorporated areas

The REAL American Evil Empires...

- Not the USA but imperialist CITIES.
- Annexation subjugates and disenfranchises suburbs and rural areas.
- No more DISPROPORTIONATE taxation
- No more non-citizen representation!
 - (representation WITHOUT taxation!)
- When taxes increase, Freedom decreases
- Sanctuary Cities = Regional Tyranny

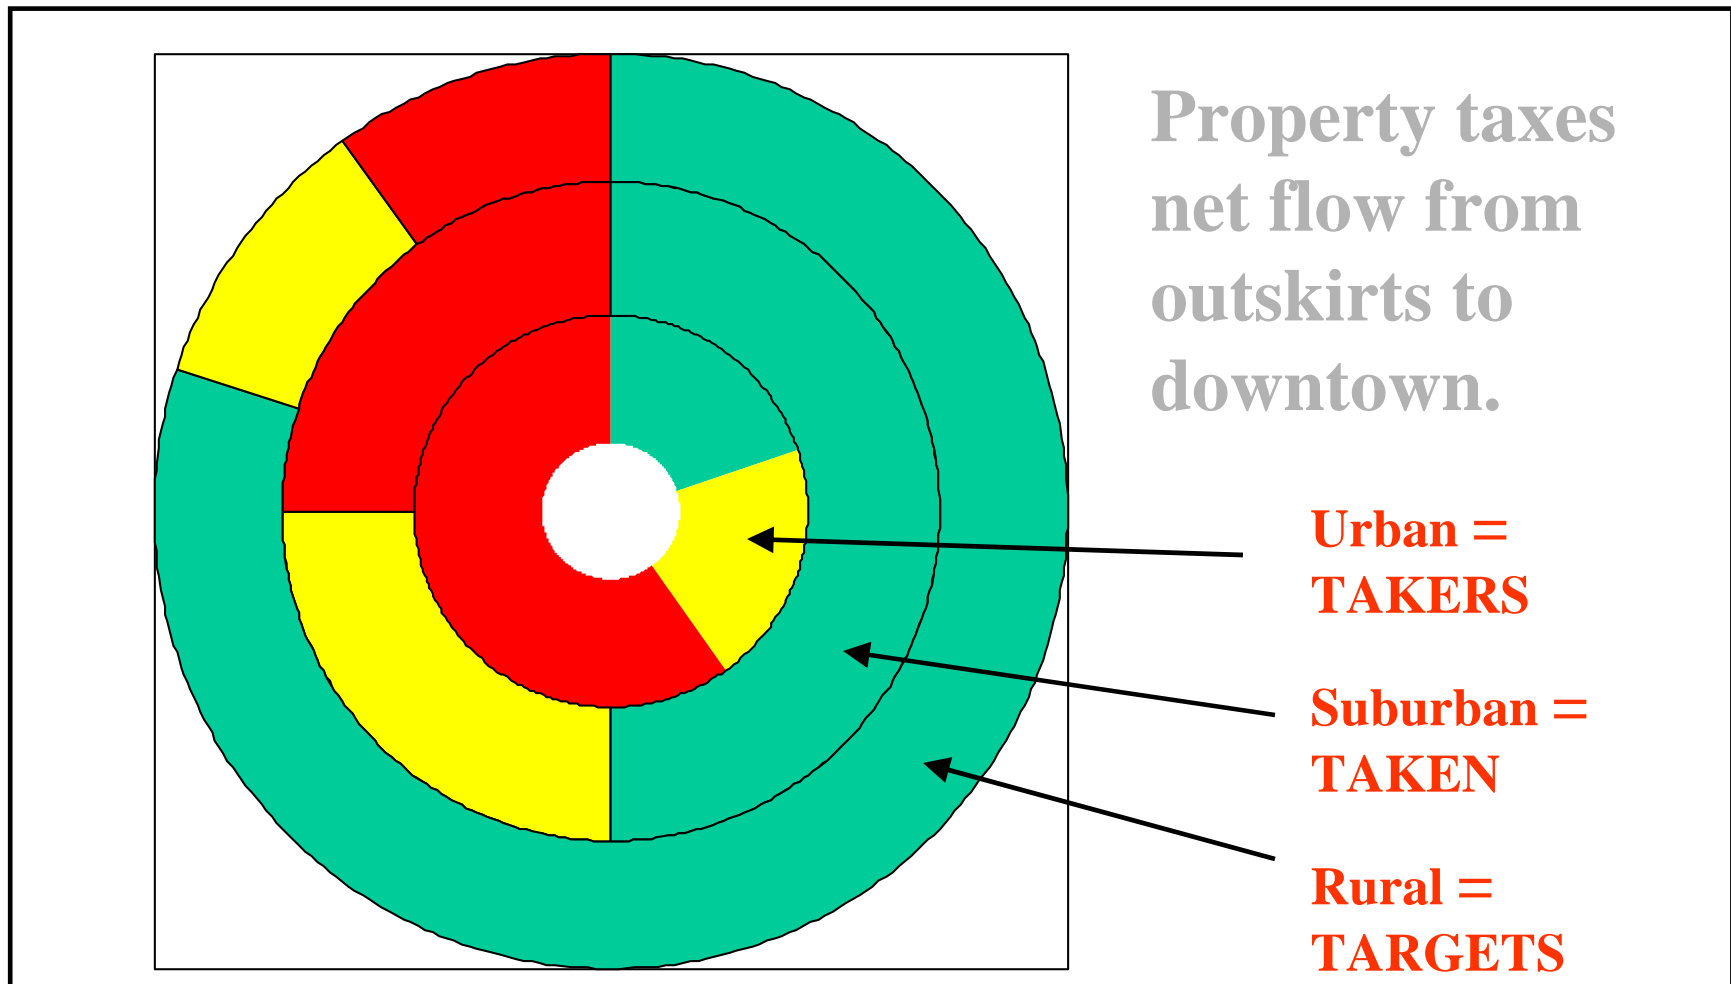

Fans of Annexation

- Lenin
- Stalin
- Hitler
- Mussolini
- Putin
- *Too many U.S. big-city mayors*

Stakeholders vs. Shareholders

- Evil ENVY makes usurpers and stakeholders of those without rights or standing
 - robbers are stakeholders in a bank's assets
 - the devil is a stakeholder in Heaven's souls
- FRAUD and THEFT makes shareholders of envious stakeholders
- Appropriate Citizen Shareholder JEALOUSY protects what is rightfully one's own.

Honest working people are THROUGH being TAKEN and TARGETED

*How about that **manufactured**
Cloward-Piven economic crisis?*

- Property values have plummeted
- Foreclosures on citizens, not illegal aliens
- Cities slow to lower property taxes, love \$\$
- Homeowner anger across political spectrum
- A PERFECT STORM OPPORTUNITY
- Here is how Citizens get back control...

Municipalities = Principlalities...

- Annexation has given anti-USA municipal entities immoral but legal grounds for property zoning and taxing of productive Citizens...
- ...to buy votes from welfare recipients and unionized government workers.
- Annexing more and more territory under the wrong people's headship is the problem.

And therefore...

- If we reverse the PROCESS they used to gain power, we reduce their power.
- Si, se puede! (Yes We Can!)

Attack, Attack, Attack!

Attack Every Liberal City's

- Tax Base
 - Official's Ethics
 - Land Area
 - Moral Legitimacy
 - Cost of Living
 - Quality of Life
-
- We have both ideology and economic factors on our side right now, more than ever!

Never forget this promise:

For the upright will live in the land,

And the blameless will remain in it.

But the wicked will be cut off from the land,

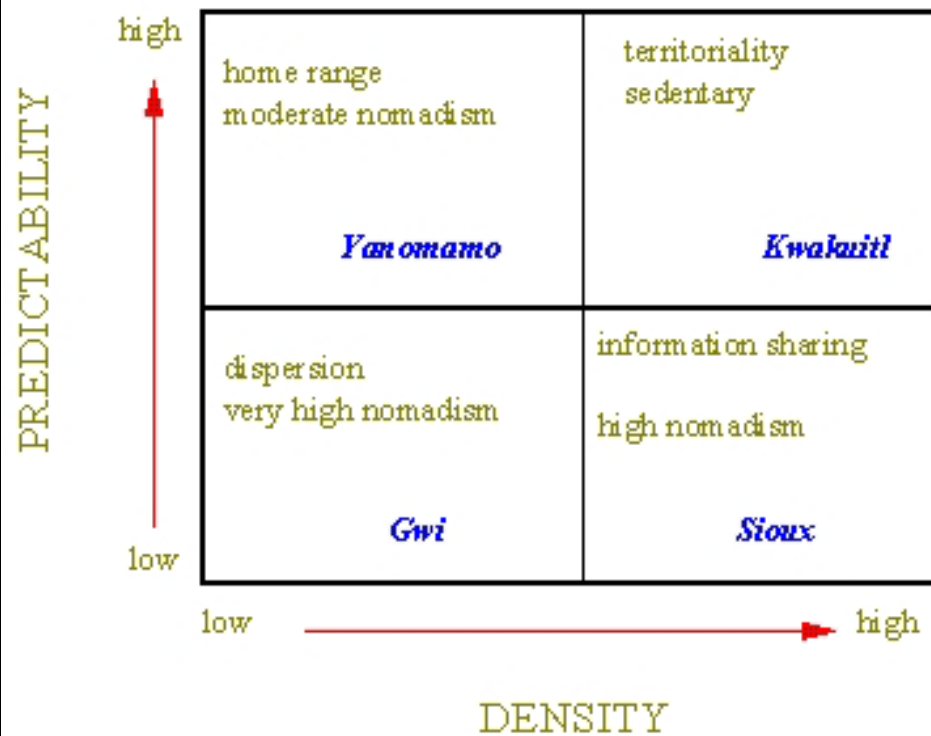

And the treacherous shall be uprooted from it.

-- Proverbs 2:21-22

Definition of territoriality

- ▶ An area occupied more or less exclusively by an individual or a group by means of repulsion through overt defense or advertisement.

Brown's Model of Territoriality

Territoriality: Costs and Benefits

Costs

1. time, energy, or risk associated with defense
2. opportunity costs or diversion of time from necessary activities
3. reliance on a spatially limited resource area

Benefits

All those associated with the exclusive use or access to critical resources

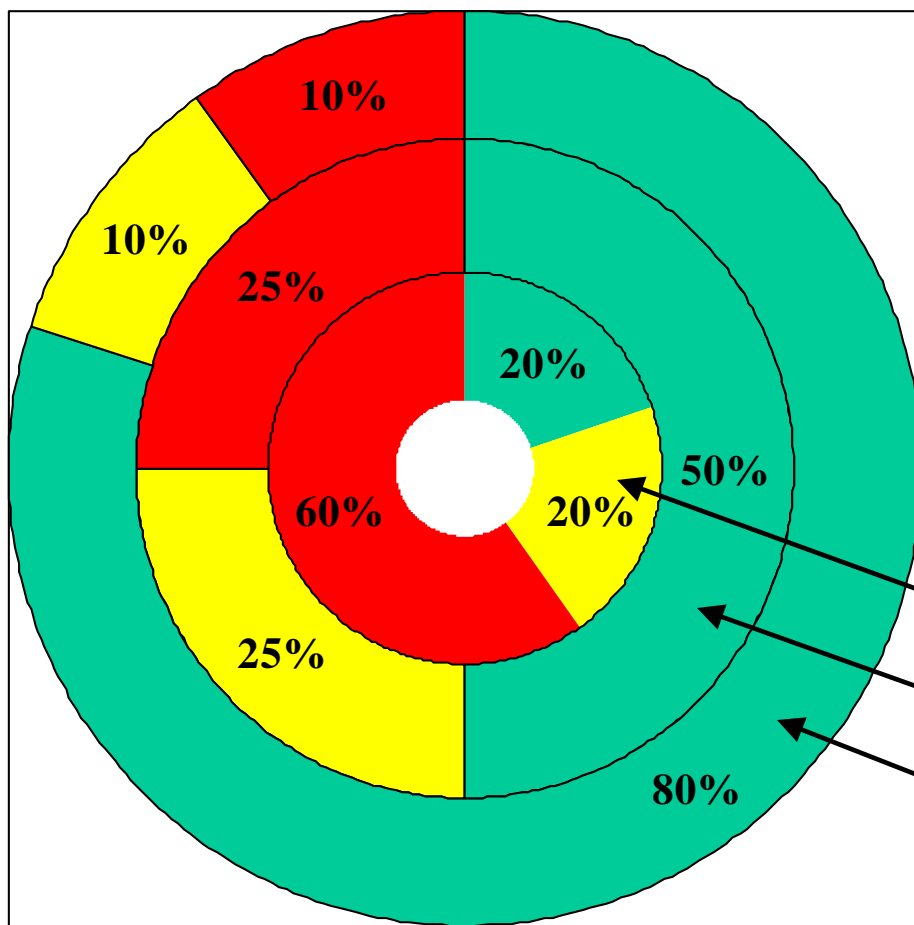

OUTRAGED VOTER enlightened self-interest can split cities...

- ...into smaller more-accountable entities,
- each with its own elected Mayor and Council, possibly volunteers or part-time to keep city taxes down as incentive to law-abiding residents and businesses.
- In this economy, who needs or can afford a palace for City Hall—or new public school?
- Possible Voluntary or Involuntary Bankruptcy of target sanctuary cities.

Three-Pronged Attack Strategy

- Regime Change – get new bureaucrats
 - National grassroots efforts to oust Bolshevik ‘Liberal’ and RINO officials at all levels with concerted efforts in primaries and generals. (Throw the bums out.)
- Policy Change
 - Petitions, lobbying and prayer– bureaucrats repent and do what’s right. (The bums stop being bums)
- Boundary Change
 - Legal De-Annexation/un-incorporation. Reduces taxable bureaucrat turf regardless of who’s in charge. (The bums can do less damage to fewer people.)

Deannexation of 'Sanctuary' Cities -- a winning strategy:
PRINCIPLES plus **Working-Class Fiscal Interests** vs.
Evil Empire-Builders & Welfare-Taker Fiscal Interests.

Anticipated Votes:
Deannex YES votes
Deannex SWING votes
Deannex NO votes

Urban Voters
Suburban Voters
Rural Voters

Don't Cut & Run, Deannex & Conquer!

- The treasonous secessionist movement is headquartered in the big cities and universities. They want to divide the USA to conquer us.
- “The belief that security can be obtained by throwing a small state to the wolves is a fatal delusion” -- Winston Churchill
- Ditto for small and large cities. If the enemy is within, we must tear that city down, legally speaking, and build smaller fortresses with faithful public servants more accountable to their sole constituents: ***CITIZENS.***

The bigger they are, the harder they fall.

- After fire and brimstone, what's the worst thing that could happen to scofflaw Liberal 'sanctuary' cities?
- It's not a boycott.
- It's Deannexation. Secession from the city limits.
- Slice those cities up. Slash their tax base.
- Incorporate as new cities with online volunteer patriotic City Hall teams with lower cost-of-living and higher quality-of-life.
- Build competing cities on the scorched-earth ashes with the votes and dollars of law-abiding businesses and property tax payers and all who want a safe community...

Incentives to voters include...

- safer communities,
- safer water,
- preserved property values,
- reduced local taxes,
- reduction of voter fraud and
- better Citizen control of local government.

*Incentives to nonprofits/churches,
talk radio and their constituencies
include...*

- Protect First Amendment freedoms by dethroning or at least chilling the corrupt regimes who support censorship, “Fairness Doctrine,” “Net Neutrality,” “Hate Speech” legislation and judgments.
- Prevent a Kelo attack by vote-redistricting themselves out of imperialist City jurisdiction.

Incentives to businesses include...

- Positive pro-USA publicity,
- Reduced local tax and license rates
- Safe, honest, legal labor
- Opportunity to participate in a private self-insured companies group,
- Opportunity to participate in a private self-insured health insurance cooperative,
- Recognition as a Preferred Provider for patriots with virtually guaranteed clientele.
- Avoid being a target of our planned boycotts
- Avoid being a target of our planned lawsuits.

Public Safety/First Response

- Promote premises
 - Self-defense and Volunteerism as new era's First Responders
 - Career Public Safety professionals are Second/Backup Responders.
- Require less collective, more bargaining.
- Timeshare Fire Engines and other heavy infrastructure costs across townships.

'Sanctuary City' weaknesses to fully exploit in deannexation campaigns

- Negative Economic Growth
- Comparative Cost of Living
- Excessive Property Taxes
- Average Wage Trends
- Major Crime Rates/Unsafe communities
- Reduced Tourism
- Drug-related burglaries and other crimes
- Flagrant Panhandling, Prostitution, Perversion
- Genuine Blight (not Kelo fraud and grand theft)
- Graffiti & Vandalism
- Excessive Business License Fees of many types
- Excessive Local Tax Rates
- High Insurance Costs

And since we're fighting Marxism...

- Let's Play...Reverse Class Warfare!
 - Private wage envy vs union/government jobs
 - Welfare outrages at expense of workers
 - "Blame The Democrats" for every ill and shill.

More Enlightened Self-Interest Hot Button Issues...

- Constituent Anger re: bailouts, urban subsidy/cost-shifting
- Suburban property taxes subsidizing inner city bureaucrats
- Property taxes deliberately slow to adjust, while values plummet.
- Soft on crime
- Urban insurance premiums for cars
- Hospital/medical system overloading/cost shifting
- No jobs for our kids—or us.
- That giant sucking sound is Democrat welfare/vote havens
- Property taxes going up or stable while values have plummeted = more than just Conservatives who are angry
- Inner city captives who **HAVE** an American dream are trapped, can evangelize the idea for us in urban areas.

NOW IS THE TIME TO STRIKE!

- The popular mood of economic dismay and anger at politicians tips the playing field strongly in our favor.
- We will never have a better opportunity than right now.
- Tax-And-Spend Politicians face a lose-lose scenario: either
 - uphold the status quo, keeping Citizens furious so they don't have to cut budgets and anger unions for campaign money and feet-on-the-street, or
 - Cut budgets and taxes, making unions furious so they don't face ousting by infuriated voters in regular or special elections (that we may help sponsor)

It's A Perfect Storm!

- Voluntary non-career Public Servants set new precedent for what it should run to operate a government.
- Low City Tax rate will incentivize businesses to join the movement.
- Low Property Tax rate will motivate homeowners to join the movement.
- High Density Property Code zoning variances will encourage and enable renters to join the movement and acquire equity. Liberal Renters who become property owners become more Conservative.
- Active concern to fight Kelo risks will motivate churches, other nonprofits to join the movement.

Door-knocker business card, flyer, postcard to Homeowners (CALIF)

- Dear California Homeowner:
- If you purchased your home since _____, based on a comparison of current typical property taxes to the payments paid under Prop. 13, you may have overpaid your property taxes by more than \$5,000 since 1987.
- If you purchased your home prior to (1987), you probably did not overpay, please pass this on to a neighbor who may have overpaid.
- If you want more information on the benefits of laws such as Prop. 13 and how to seek release of any overpaid money, go to www.Deannex.com.

*Door-knocker business card, flyer,
postcard to Homeowners (NON-CALIF.)*

- Dear Homeowner:
- Based on a comparison of your property taxes to the payments paid by California homeowners under Prop. 13, you may have overpaid your property taxes by more than \$5,000 since 1987.
- If you want more information on the benefits of laws such as California's Prop. 13 and how to seek release of any overpaid money, go to www.Deannex.com.

Typical Ballot Question:

- SHALL THE CITY LIMITS of (CITY) be returned to the boundaries effective January 1, 1912?

YES NO

That's it. A simple question something like that.

There are profound implications—this is an enormous, clear and present danger to the good old boy political machines! It will be worth the fight.

1912 was prior to the Federal Reserve Act of 1913. Local leaders can pick another date if desired.

Tactics will vary according to state and municipal laws

- Petitions, Referendums, Ballot Initiatives or other means may be the suitable means for any given locale.
- Expect to have to generate a supermajority to overthrow entrenched incumbents and their political machines.
- Leverage the ‘Perfect Storm’ factors to educate and persuade a landslide of voters.

Vote Fraud Prevention

- Strictly a local election
- Include dyed finger policy
- Voter fraud can be policed effectively
- Photograph all using public streets or sidewalks for access to voting areas
- Searchable master photo website.
- If deannexation succeeds, Registrar is split!
- Divide Registrar of Voters jurisdictions, get new eyes on all files and more transparency, smaller offices, closer to the People.

*Split a city = split a school district
= get local School Board control!*

- Coordinated Write-In Effort
- Regime Change on existing Boards
- Split Cities mean new School Districts
- New Districts mean new Board Members
- New Boards refuse all Federal funds and **teach exclusively PRO-USA curriculum!**
- Refuse Federal \$ = freedom from bondage!

*Split a city/county = split its Welfare,
Child Protective Services, etc...*

- New Districts mean new staff members
- New Staff means new sets of eyes
- New Eyes will see workfare, not welfare...
- New views refuse all Federal funds and teach exclusively PRO-USA curriculum!
- Cities may be easier targets than counties
- Be prepared to simplify a complex MESS

Citizen Day Worker Sites

- Support and promote Legal Worker Sites next to illegal sites. These are for Voter Education, Petition Gathering and Observation purposes.
- Legal workers have cameras, photograph vehicles and drivers of those who pick up illegals.
- LEGAL DAY WORKER T-Shirts with U.S. Flag.
- The site itself is equipped with cameras and perhaps a picture of a rat in a trap, symbolizing the consequences...

Target Cities

- City Halls that support Amnesty Senators
- Sanctuary Cities – declared and de facto
- We can cause a ‘chilling effect’ and stop this treason!

Big City metro/urban areas...

- ... are the support base for the Marxists and Useful Idiots at the State and Federal level.
- Break up the concentrated power centers and Conservatives will make huge gains in future elections **everywhere!**
- Liberal Grassroots? **MOW THAT LAWN.**

2010: Ousting Amnesty Traitors, Reversing 'Immigration Reform'

- This strategy is focused on municipal, not Federal principalities and will be effective regardless of any Federal laws—and on that thought:
- By splitting many Voter Registration offices, we can get fresh sets of eyes auditing and purging voter files.
- These will help counter the known Soros efforts to corrupt election officials and urban ACORN activities.
- Extra efforts will be made to deannex known corrupt political machines.
- Any unlawful legislation signed by the 111th Congress can be **REPEALED** by the 112th, so help us God!

A Patriotic 'Secession' Movement

- Radicals want to secede from the USA and seize control of seceded territory.
- Bolshevik 'Democrats' want to annex unincorporated areas into their urban strongholds. Land-grabs, eminent domain, bigger tax bases, more control.
- Real Americans can and must fight both by de-annexing these unholy 'sanctuary' cities.
- **DIVIDE--AND CONQUER** the 'public servants'!

We Have the Right and the Might! And the DUTY!

- The entire remedy is with the people.
– William Henry Harrison
- It is by their votes the people exercise their sovereignty. – Thomas Jefferson
- A wise man scales the city of the mighty, and brings down the stronghold in which they trust. -- Proverbs 21:22

City Encirclement Strategy

- For those that desire to join in, a prayer-circle surrounding the city....and a prayer walk of 7 days, with voter registration, petition-signing and Ltd. Power of Attorney form executions officially starting on the 7th day and thereafter...accepting earlier ones as well.
- Circle the city with Prayer.
- Circle the city with Petitions.
- Circle the city with Patriots.
- Welcome to Jericho!

Will you help?

- Every success will encourage many others.
- Word will spread like wildfire.
- Help set brushfires in people's minds!
- Will you start this in your city?

WANTED: just a few champions

- "Cowardice asks the question, 'Is it safe?' Expediency asks the question, 'Is it politic?' Vanity asks the question, 'Is it popular?' But, conscience asks the question, 'Is it right?' And there comes a time when one must take a position that is neither safe, nor politic, nor popular, but one must take it because one's conscience tells one that it is right."

-- Martin Luther King, Jr.
